

KST MIGHTY INJECTOR

Spring-loaded Injection System for Use with Low-Viscosity Epoxy Resin

DESCRIPTION

KST Mighty Injector is a spring-driven pump capable of continual pressure for repair works of involving low-viscosity epoxy resin.

It is recommended as the ideal choice for use with KST grouting materials such as KISEPO 20 or KISEPO 30W.

The system comes with a port, which is to be secured to the receiving substrate by means of KISEPO 10, and a spring-loaded injection device capable of up to 4-bar pressure.

ADVANTAGES

- Capable of high pressure grouting.
- Effective for foundation repair, wall repair, basement repair, pool repair, concrete & crack repair
- Fast, Clean installation with minimal intrusiveness
